

EXPERIENCE

XD Studio, Government Ontario / UX Designer Intern

Toronto / May- Aug 2026

- Designed the interface for an internal AI tool translating dense regulatory content, using **affinity mapping** and **user testing** to validate changes; testing showed users no longer needed the **required hint tool**
- Redesigned ServiceOntario platform flows against the Ontario Design System, reaching full **WCAG accessibility compliance** and **improving consistency** with other Ontario government services

Ophelia AI / UX Designer

Toronto / Jan - Apr 2026

- Designed the interface for an **AI-powered creative canvas platform**, similar to FigJam with built-in AI, that lets users storyboard and generate high-quality AI videos from a series of images
- Built the large, exploratory canvas experience in **close collaboration with the product team**, focused on making a complex AI-driven workflow feel intuitive
- The platform's interface is now **live and in active use**

Ministry of Transportation / UX Designer Intern

Toronto / Sept - Dec 2025

- Led discovery** on an internal case management tool used by government workers to surface usability pain points
- Created wireframes to **redesign key flows based on usability testing findings**; the redesigned flows are **now used internally** by the team

Descartes Systems Group / UX Design Intern

Waterloo / Jan - Apr 2025

- Audited existing products** to identify gaps in the design system, applying **UX thinking** to define a new component to fill the gap
- The proposed component was **approved** and is now a **permanent part** of the company-wide Figma design system

OMHS (via UW Blueprint) / Product Designer

Oakville / May - Dec 2024

- Led end-to-end design** for a volunteer and staff management platform for the humane society, from initial brainstorming and client collaboration through full build-out
- Designed core flows** for pet care coordination and volunteer management, working closely with a team of **2 PMs, 4 designers, and 6 developers**
- The platform **shipped to production** and is in **active use** by shelter staff and volunteers

LEADERSHIP

UW Blueprint / VP Design

Waterloo / May 2026 - Present

- Mentored a team of 14 product designers** building tech for nonprofit partners, hosting weekly critiques and workshops to strengthen design quality and cross-functional collaboration
- Workshops **led to stronger design consistency** and collaboration across the org's nonprofit-facing projects
